Physical weakness		
Job stress		
Other		

**Important:** Physical symptoms may have purely physiological causes. You should have a medical doctor eliminate the possibility of such physical problems before you proceed on the assumption that your symptoms are completely stress-related.

## Tactics for Coping with Stress

As a member of modern society, you have available to you a variety of methods to cope with the negative effects of stress. Doctors can treat your stress-related symptoms and diseases. Over-the-counter remedies can reduce your pain, help you sleep, keep you awake, enable you to relax, and counter your acid indigestion and nervous bowels. You can consume food, alcohol, and recreational drugs to help block feelings of discomfort. You have diversions such as TV, movies, hobbies, and sports. You can withdraw from the
